

1080P AHD IR Varifocal Lens Cameras

HEL2R2 CCTV Camera (Dome)
HBL2R2 CCTV Camera (Bullet)

About Honeywell Performance AHD

The Honeywell Performance AHD series is designed for small-to-medium scale surveillance applications at a very cost-effective price.

Honeywell's latest product offering includes four types of 1080P HD Analog IR Fixed/Vari-focus eyeball and bullet cameras, and three types of 4/8/16 channel DVR with the no latency 1080P live view.

Featuring advanced Analog High Definition (AHD) video technology, the Performance AHD series HBL2R2 and HEL2R2 are HD analog camera which provide 1080P (1920 X 1080) sharp, high definition images.

The AHD technology ensures real-time and non-compressed signal transmission via coaxial cable, which significantly reduces installation cost and provides much sharper images without video quality loss.

Market opportunities

- The HEL2R2/HBL2R2 cameras are cost effective surveillance solutions suitable for various applications, including schools, colleges, hotels, hospitals, commercial sites, retail stores, warehouses, banks among others.
- Featuring 2.8-12 mm built-in lens, 1080P resolution, TDN function and IR night vision.
- Ideal for easy and cost-effective upgrade of existing analog systems to high definition surveillance.

FEATURES

- 1080p real time live view
- 1/2.7" CMOS progressive scan
- Minimum illumination: 0 Lux (IR on)
- TDN (IR-Cut), AGC, DWDR
- 2.8-12mm Lens
- IR Distance: 30m Dome camera, 40m Bullet camera
- Power:12VDC
- Output: AHD/CVBS

CADVR-1004FD / -08FD

1 SATA 4/8 Channel 1080P AHD Digital Video Recorder

The Honeywell Black™ CADVR-1004FD/08FD is an easy-to-use 1080P 1U digital video recorder series available in 4 and 8 channels. By deploying H.264 video compression, compatibility with AHD analog cameras, 750TVL (or less than 750TVL resolution), and Honeywell Black™ CALIP series IP cameras, this DVR delivers outstanding video performance for hybrid application of analog and network surveillance.

The user-friendly operation interface with button panel allows users to live view, record, playback, back up and remotely control the system simultaneously. With 1 SATA slot, the maximum storage capacity is up to 6TB.

The CADVR-1004FD/08FD is easy to configure and can be operated through smart phone and internet explorer. The CALNVRView mobile APP allows a quick remote access and control to CADVR-1004FD/08FD via your mobile phone. Free DDNS server service is available to support remote control of the DVR. The CADVR-1004FD/08FD also comes with a free CMS software CAL-CMS200 which provides rich functions such as video management, user management, storage, video output, etc.

Market Opportunities

The CADVR-1004FD/08FD series is an ideal solution for high definition surveillance. With 1080P high resolution recording, compatibility with AHD analog cameras, 750TVL (or less than 750TVL resolution), and Honeywell Black™ CALIP series IP cameras, this easy-to-configure and easy-to-operate DVR series is ideal for small to medium scale surveillance installations such as in retail stores, dispensaries, clinics, offices hotels and so on.

FEATURES

- 1080P high resolution recording
- Button-panel interface for easy operation
- Multiplex recording schedule options: manual, alarm, motion detection, timing
- Multiplex operation: live view, record, playback, backup and remotely control the system simultaneously
- HDMI and VGA output simultaneously at up to 1080P resolution
- H.264 High profile decoding
- 1 SATA HDD interface: maximum 6TB storage capacity
- ONVIF 2.0 compliant
- Support remote control through DDNS service by free of charge
- On-line user view: maximum 6 users simultaneously
- CALNVRView: free Android and Apple app for remote playback, record and snapshot through mobile phone
- Multiple network monitoring: CAL-CMS200 (for PC), CALNVRView (for mobile app), IE Web browser
- Power: DC12V
